Port Congestion Surcharge - Auckland

Dear Valued Customers

As many will be already aware, the operation at Ports of Auckland has been causing significant delays over recent weeks, and while the delays were previously confined to Fergusson Container Terminal, we are now seeing the flow on of this to the Multi Cargo area of the port.

As such we will implement a Port Congestion Surcharge applicable to all cargo moving across the port in Auckland. Both import and export cargo.

USD200 per TEU for Dry and Reefer
US\$12.35 per RT on all breakbulk cargo.

This surcharge is considered to be a NZ local charge, and therefore will be invoiced to the NZ based shipper on export cargo, and consignee on import cargo.

The surcharge will become effective for all cargo loaded / discharged on vessels arriving / departing on / after 18 December 2020.

We will continue to monitor the situation, and revise / remove the surcharge as the situation evolves.

We thank you for your understanding and continued support.
